(v) The soft pack or satchel could be used by consumers as a protection from sun, wind, dust, rain, etc., and, as well, to protect the package from external agents, such as claws, teeth or nails, which could damage or deteriorate the package; **(vi)** The soft pack or satchel of the invention can be used not only as packaging, but as a means to give visibility to the product in terms of price and origin of its origin, since the pack or satchel can show easily the product brand or producer; **(vii)** The soft pack or satchel of the invention can be used by companies or wholesalers as a simple but effective means to protect, preserve and store the packaging and, as a consequence, the product. On the one hand, the boxes and bottles of the existing soft pack or soft packaging solutions have been highlighted, particularly in terms of their size, shape and other attributes, and, on the other hand, the soft pack or soft packaging of the invention has been placed in the same size, shape and other attributes. In other words, the soft pack or soft packaging of the invention is an integral part of the soft pack or soft packaging solutions that have already been discussed. As the patent of the solution of the soft pack or soft packaging of the invention, a single solution was selected, namely, item 5 of [Table 3](#t3-sensors-13-16129){ref-type="table"}. However, for the completeness and clarity of this patent, the invention is expanded in other attributes, and, consequently, the soft pack or soft packaging of the invention is considered to include a combination of the previous attributes. This also gives rise to three new attributes, namely: **(i)** The surface or exterior cover of the soft pack or soft packaging is not only transparent but also opaque; **(ii)** The surface or exterior cover of the soft pack or soft packaging is not only transparent but also translucent; **(iii)** The surface or exterior cover of the soft pack or soft packaging is not only transparent but also coloured. This expansion includes the expansion of the size, shape and number of the pack or package. The *size* of the soft pack or soft packaging will be the main attribute that allows for the differentiation of the product within the same packaging. It will also show the manufacturer, the brand or producer of the product. Furthermore, the * 82157476af
